

Cork Insulation Tape

Cork Insulation Tape is a 40 percent cork filled, non-curing butyl rubber tape. Cork Insulation Tape is specially designed for hot or cold lines. This material is non-oxidizing to metals, eliminates moisture vapors and condensation on cold line surfaces, while insulating against heat.

Features

- Non-asphalt Base Tape
- Butyl Rubber Base
- Non-drying

Seals and Bonds

All Metals, Glass and Plastics

Technical Data

Color	Black
Solids Content	100%
Service Temperature	-40° to 200°F [-40° to 120°C]
Penetration	8.0 – 8.5 mm 150 gram load @ 78°F [26°C]
Chemical Resistance	Excellent to Water, Acid Vapors, <100 ppm, Alcohols and Salt
Odor	None
Shrinkage	None

Application

Temperature	Above 40°F [4°C]
Method	Trim to Fit; Remove Release Liner; Apply to Clean and Dry Surface
Preparation	Clean Debris and Oils from Area
Disposal	According to Local, State and Federal Laws

Storage

Temperature	Moderate Conditions
Shelf Life	1 Year
